Town News

Town e-News: Week of December 22, 2014

News from the Town Manager

Town Council Meeting – Jan. 7

The next regular meeting of the Mammoth Lakes Town Council has been scheduled for Wednesday, January 7, 2015 in Suite Z beginning at 6:00 p.m. Visit the [Streaming Media Archive](#) to review the previous meeting minutes or view the webcast Town Council meeting.

Town Office Holiday Schedule

Town offices will be closed to the public on Wednesday, December 24, from Noon to 5:00 p.m. and on Thursday, December 25, 2014.

January Commission/Committee Meetings

Jan. 6 Recreation Commission Meeting, Suite Z, 2:00 PM

Jan. 14 Planning and Economic Development Commission, Suite Z, 2:00 PM

Town Channel 51 Has Moved!

The Town's dedicated channel, TV 51 has moved to [Channel 18](#). The move was necessitated by Suddenlink and their local programming needs. TV Channel 18 will still continue to provide access to all the Town's meetings with live and taped coverage of Town Council, and advisory body meetings such as the Planning and Economic Development Commission and Recreation Commission. For meeting dates and times, please visit: www.townofmammothlakes.ca.gov.

Mammoth Lakes Police Department Weekly Report

Calls For Service/Officer Observations

116, including 0 business/building checks

Crime/Incident Reports

10 reports, including 4 arrests

Traffic Stops/Citations/Traffic Collisions

30 stops; 7 citations; 7 parking citations; 0 skate park citations; 1 collision

Animal Control Incidents

0 incidents; 0 reports

Wildlife

0 calls; 0 reports

Projected Average Resort Occupancy

- Friday, December 19, 2014 = 58%
- Saturday, December 20, 2014 = 73%
(48% same weekend in 2013, up in 2014, Weekend before Christmas)
- Sunday, December 21, 2014 = 74%
- Monday, December 22, 2014 = 72%
- Tuesday, December 23, 2014 = 69%
- Wednesday, December 24, 2014 = 72%
- Thursday, December 25, 2014 = 78%
(67% same midweek in 2013, up in 2014, Christmas Week)

Hotels/Motels/B&B:

- Friday-Saturday = 71%
- Sunday-Thursday = 75%

Condos:

- Friday-Saturday = 58%
- Sunday-Thursday = 70%

Outlook for the following weekend:

- Friday, December 26, 2014 = 87%
- Saturday, December 27, 2014 = 92%

Please remember that the projected occupancy is calculated in order to assist the business community with staffing levels and product ordering. The actual occupancy percentages are reported from the lodging industry to the Town of Mammoth Lakes Finance Department.

Community News

Night of Lights

Celebrate the magic of the holiday season with a one-of-a-kind evening at Canyon Lodge this Saturday, December 20, 2014. It's a fun-filled night for all ages with live music, a fireworks show, torchlight parade, kids activities and more.

Night of Lights Schedule of Events

4:30–6:30pm

- Family Activities at Canyon Lodge: Snowmobile Rides, Sledding Hill, Face Painting, Caricature Artist

5:00pm

- Magic Show, 3rd Floor at Canyon Lodge
- Evening Festivities & Food Concessions Open
- Rooftop Viewing & Family Club Room Open
- Live Music with Damon Castillo Band

6:45pm

- Night of Lights Show

7:30pm

- On-Snow After-Party with DJ Slip Matt

Getting to Canyon Lodge

There are plenty of transportation options available for Night of Lights including Park & Ride from Mammoth High School, parking across from Chart House, at Eagle Lodge or in The Village. The Village Gondola will also operate from 5pm-10pm for transportation to and from Canyon Lodge. Please avoid parking at Canyon Lodge; we intend the lot will fill up quickly. We hope to see all of you at Night of Lights this weekend

“Winter Wonderettes” Return With Holiday Cheer

The Wonderettes are back for the holidays in Mammoth Lakes Repertory Theatre’s production of Winter Wonderettes. When Santa turns up missing at the annual Harper’s Hardware Holiday Party, the girls must use their talent to save the day. Classic 60s versions of holiday songs include “Santa Claus Is Comin’ to Town,” “Jingle Bell Rock,” “Run, Rudolph, Run,” “Winter Wonderland,” and many more. The lively musical runs Thursdays through Saturdays at 7:00 pm, Sundays at 4:00 pm, from December 18 to January 4 at the Edison Theatre.

“I’m so excited to present this sequel to the original ‘Wonderettes’ show everyone loved when we presented it in 2012,” said Artistic Director Shira Dubrovner. “In fact, two of the girls in the original show approached me about doing the sequel. My Artistic Council and I thought it would be a great way to celebrate the holidays.”

Kristin Reese, a long-time local who has been performing in front of Mammoth audiences since 1978, is one of the two returning actresses playing the role of Missy, the over-achiever of the group. Amy Grahek also returns to reprise her role as Cindy Lou, the prettiest girl at Springfield High. Both Reese and Grahek are members of a local bluegrass band called “Bodie 601.”

Allison Peeler, who recently performed in the Playhouse 395 production of Oklahoma, joins the cast as Betty Jean--the class clown. And Cassandra Burgenbauch, last seen in the MLRT production of Fiddler on the Roof, plays the happy-go-lucky Suzy.

“This show has very difficult four-part harmony and these four girls were essential to making the production top notch,” Dubrovner said. “They sound amazing in these 1960s renditions of holiday classics.”

The show is directed by Dubrovner with musical direction by Diana Lanane and choreography by Sabrina Nioche.

Tickets are available online at \$20 for adults, \$18 for students and seniors, and \$10 for children under 16 years of age. Tickets at the door are \$22; sorry, no discounts. Season Passes are available for \$70 per person and they include entrance to four shows of the pass-holder's choosing. To purchase season passes, make reservations for a specific show, or to donate to the theatre, visit www.edisontheatre.org or call 760-934-6592.

Safe and Sane New Years – Dec. 31

Young adults can make a choice from 7:00-10:00 p.m. on New Year's Eve to party safe at the Mammoth Lake Arts Center - 549 Old Mammoth Road. Presented by Eastern Sierra Entertainment and the Mammoth Lakes Chamber of Commerce, the evening will include entertainment featuring music videos, EDM Disc Jockey JaDJ, non-alcoholic drinks and a presentation by the CHP to keep our kids safe. Fee is only \$5:00 at door (donation requests). Business and Community leaders wishing to contribute to help keep kids safe this New Year's Eve are encouraged to contact Mark Vincent (661) 674-7151

US Forest Service to "Keep it Wild" with historic mule pack trains in January 1 Rose Parade

U.S. Forest Service rangers, firefighters and volunteers will take to Colorado Boulevard for the 126th Rose Parade in Pasadena on January 1. The agency celebrated its centennial a decade ago with a Rose Parade entry in 2005.

The U.S. Forest Service entry will be a celebration of the 50th anniversary of the Wilderness Act, the historic role of packers in supporting wildland firefighters and other backcountry operations and appreciation of the outstanding contributions made by national forest volunteers.

The all-mule equestrian entry will include an entourage of Forest Service Rangers in period uniforms and anchored by three mule pack strings. The mule pack strings will be expertly guided by California-based U.S. Forest Service packers Michael Morse, Lee Roeser and Ken Graves, who have an average of 37 years of experience each in the saddle.

In 1897, the first Forest Rangers in California rode out of Pasadena into the (then) San Gabriel Timberland Reserve. The beautiful San Gabriel Mountains of the Angeles National Forest, one of the most heavily visited national forests in the U.S., have helped serve as the backdrop for 125 years of Rose Parades.

As the centerpiece of the entry, Pacific Southwest Regional Forester Randy Moore will be joined in an authentic 19th century wagon by Thomas Tidwell, 17th Chief of the U.S. Forest Service. Tidwell and Moore will be joined in the wagon by fire prevention icon Smokey Bear, known to generations as the symbol of wildfire prevention in America, and Mike Heard, a national wilderness volunteer award winner from California's Los Padres National Forest.

"The U.S. Forest Service is excited to be a part of the 2015 Tournament of Roses Parade," said Moore. "Our entry is a chance to showcase our outstanding packers and wildland firefighters as well as honor the thousands of volunteers who help care for your national forests every day."

The event also represents the final chapter in a year-long series of events and festivals celebrating the 50th anniversary of the Wilderness Act of 1964.

In addition to about 35,000 employees nationwide, the U.S. Forest Service volunteer workforce numbers in the tens of thousands. These dedicated Americans contribute thousands of hours each year to the conservation of national forests in California and across the U.S. The contributions of volunteers are highly regarded in the U.S. Forest Service and constitute a large part of the

workforce. U.S. National Forest volunteer and retired San Bernardino County Fire Captain Jim Wilkins whose vision and energy have helped shape the entry over the past few years, will also be riding in the wagon.

The entry is unique in that the parade mules are also working pack animals, having come off the frontlines of supporting wildfires across Northern California for several months in the summer and fall. The mules are used for long treks deep into national forest wilderness areas to resupply firefighters and wilderness rangers. They're also uniquely suited to working at high altitudes and in the rugged terrain of the Sierra-Nevada, Trinity Alps and other mountain ranges in California.

The U.S. Forest Service Pack Stock Center for Excellence keeps the tradition of packing alive by continuing to train packers who support backcountry activities across the 20.8 million acres of national forest lands in California. The Center employs about 10 packers and about 150 working animals.

The parade and its flat 5 ½ mile route will be a welcome break for the 20 firefighters joining them. U.S. Forest Service firefighters and cooperators have fought 1,449 wildfires that have burned 399,649 acres on national forest lands across the state in 2014. California's historic fire season, driven by three straight years of drought, has been slowed only by several days of heavy rain in December.

Note to media: Employees and volunteers from nearly a dozen national forests across California are assisting with the U.S. Forest Service Rose Parade entry. Check locally for information on participants from communities in your area. In addition to the parade, the mule pack trains will be participating in the Equestfest at the Los Angeles Equestrian Center on December 29 as well as the post-parade viewing event. For more information on the parade, Equestfest and other activities that comprise the Tournament of Roses, visit: www.tournamentofroses.com/.

CALTRANS - We're Here to Get You There!

The California Department of Transportation (Caltrans) and the California Department of Highway Patrol (CHP) want you to get where you're going safely this winter. The following are some driving tips that will help you prepare for winter driving conditions:

- Winterize your car – Check your brakes, windshield wipers, exhaust system and heater/defroster to make sure they are in good working condition. Check your radiator fluid level and add antifreeze/coolant as needed. Replace wiper blades if needed. Add a winter formula windshield wiper fluid. Make sure your tires are properly inflated and the tread is in good condition
- Check road conditions frequently –During Storms, call 1-800 ROAD (7623) or check the internet at <http://quickmap.dot.ca.gov>
- Carry in your car - a flashlight with extra batteries, blanket, extra clothing, water and snacks, towel, gloves, ice scraper/deicer, shovel, small broom, spare key, sand/kitty litter.
- Allow enough time - Slow down.
- Don't panic - If you begin to slide while driving on snow or ice, slowly take your foot off the gas pedal and steer your vehicle in the direction you wish to travel. If you must use brakes and your vehicle is equipped with anti-lock brakes (ABS), apply firm steady pressure. If you do not have ABS brakes gently pump the brake pedal. Do not allow the brakes to lock up.
- Black Ice –Black ice is nearly invisible. The temperature doesn't have to be below freezing in order for ice to form on road surfaces. Ice can form, especially when it's windy, when the

air temperature drops below 40 degrees. Low or shaded areas surrounded by landscaping or with a nearby source of water, such as bridges and underpasses, can have icy spots.

- Be observant - Do not pass snow removal equipment unless the operator directs you to.
- Stay with your vehicle - If you become stranded stay with your vehicle. Conserve fuel while maintaining warmth and be aware of possible exhaust or carbon monoxide problems.
- Chains – All vehicles, including those with four-wheel drive and snow tires are required to carry chains when traveling in areas that have chain control. Make sure they are the correct size for your tires and in proper working order. Chains must be installed on drive wheels. Know if your vehicle has front or rear wheel drive. Cable chains are acceptable, but may not provide as much traction as traditional chains. The speed limit when chains are required is 25, 30, or 35 MPH: it is posted and enforced. Chain installers may be available to help install your chains. They are not Caltrans employees. They are independent business people who are licensed to install chains. If you choose to use their services ask for a receipt that includes the installer's badge number. Chain installers are not allowed to sell or rent chains. When removing chains or installing chains, drive beyond the signs reading "Chain Control/End Chain Control." Pull over out of the lanes of traffic.
- Chain Control Information
 - R-1 – Chains or snow tread tires with a tread depth of 6/32" and a "M&S", "MS", "M+S", or "M/S" imprint on the tire's sidewall.
 - R-2 – Chains required on all vehicles except four-wheel or all-wheel drives with snow tread tires on all four wheels. Engage the four-wheel drive in the 4-high.
 - R-3 – Chains required on all vehicles; no exceptions.
- Tires – To find out if your tire tread depth is at least 6/32", place a quarter into several tread grooves across a tire. With George Washington's head upright, if the bottom of his neck completely disappears, your tread depth is at least 6/32". If you can see any part of the bottom of George Washington's neck, your tread depth is at or below 6/32" and should be checked. Remember to check to make sure the tires have the imprint "M&S", "MS", "M+S", or "M/S" which indicate the tire is rated for mud/snow conditions. You may also see the mountain snowflake symbol on the tire.

High winds and blowing snow often cause zero visibility conditions. To protect travelers, the CHP may close the road temporarily until conditions improve. During winter storms spinouts and accidents happen closing the highway. Heavily traveled routes are particularly vulnerable to such closures. Caltrans may meter traffic during the storm, letting fewer vehicles into the area reducing congestion and giving motorists the option of turning around and waiting out the delay in a warm place.

MLFD PUBLIC SAFETY NOTICE: Weak Ice Conditions

In the past two weeks there have been three incidents due to poor ice conditions within the Town of Mammoth Lakes. Two of the incidents involved humans while the other appears to have involved a bear. The emergency responders of Mammoth Lakes want to advise all visitors and locals that the ice conditions currently are questionable at best and to use extreme caution in and around all ice covered water bodies at this time.

While the ice may appear to look solid, the warm daytime temperatures have not permitted the ice to thicken to adequately support significant weight. As a result persons may obtain a false sense of security when looking at an ice covered lake and first venturing out onto the ice. Due to the lack of ice thickness, weak spots have resulted in the three incidents.

With the holidays quickly approaching, emergency responders want to ensure that the word is out there this may not be the year to venture out on ice covered lakes, at least not at this point in the winter season. Please be extra careful around our lakes and be very observant of children and pets. If you would like more information on this or any other fire safety related matter, please feel free to contact the Mammoth Lakes Fire Department at (760) 934-2300.

Annual MHS Booster Christmas Tree Sale

Magnificent Christmas Trees from Oregon/Washington are now on sale in the MHS Booster Christmas Tree Lot at Vons (Minaret Village Mall).

This is the major Mammoth High School Booster fundraiser for the season so please consider supporting a local and worthy cause. Proceeds benefit the College Book Awards, MHS Sport Teams, ASB/NHS, Fishing, Drama and Band clubs, teacher special projects and requests, teacher appreciation luncheons, assembles and the new gym floor capital campaign.

Details

Douglas Firs, Noble Firs and Grand Firs are for sale ranging in size from 4-9 feet, starting from as low as \$40. Wooden tree stands and Christmas tree lights will also be available for sale at the lot. Cash, checks, credit cards accepted. Christmas Trees may also be purchased outside of the sale hours from the Vons Customer Service Desk (only cash and checks will be accepted).

Hours

Saturdays and Holidays:	11:00 a.m. - 9:00 p.m.
Monday-Thursday (non-holiday):	3:00 p.m. - 7:00 p.m.
Fridays:	3:00 p.m. - 9:00 p.m.
Sundays:	11:00 a.m. - 7:00 p.m.

Cost

4ft and under (tabletops):	\$25
4-5ft trees:	\$50
5-6ft trees:	\$60
6-7ft trees:	\$70
7-8ft trees:	\$80 – LIMITED QTY
8-9ft trees:	\$90 – SOLD OUT!

Recreation Department Highlights

New Year’s Party At The Ice Rink – Dec. 31

Celebrate the New Year, East Coast Style at the Mammoth Ice Rink on Wednesday, December 31, 2014. This family, friendly event is only \$10.00/person and includes 2-hours of skate time from 7:30 - 9:30 p.m., skate rentals, party hats, noise makers, marshmallow roasting and a sparkling cider toast at 9:00 p.m. Dress warm!

The Mammoth Ice Rink has fire pits, new heaters, a heated changing room, hot cocoa and snacks available for sale as well. For more information, please call the Recreation Department at (760) 934-8989 ext. 222 or the Ice Rink directly at (760) 934-2505 during operating hours.

Adult Coed Indoor Soccer League Begins Jan. 11

The Adult indoor soccer league is back at the MHS Gym every Sunday night beginning January 11, 2015. We need a minimum of 4 Teams to offer the program with a max. of 8 coed teams of 10

players. Rules will state that there will be one female on the playing court at all times. Team fee: \$275 prior to 12/31/14 or \$300 per team after 1/1/15. Fee includes indoor soccer 'game' ball. Games are scheduled between 5:00 – 9:00 p.m. Visit www.mammothrecreation.com to register or call the Recreation Department at (760) 934-8989 ext. 222.

Hot Shots Youth Basketball – 18 Years Running!

Hot Shots - our local youth basketball program for 3rd-5th grade girls and boys is now underway. Join Recreation staff on Tuesday and Thursday evenings for basketball instruction from 5:30 – 7:00 p.m. in the MES gym, November 4 – January 29, 2015. Early bird cost is \$40 which includes one month of clinics followed by almost two months of league play. This is the best basketball program in Mammoth Lakes for your elementary school basketball enthusiast -- covering all the basic skills and preparing your child for middle school and high school basketball. For more info or to volunteer please call John Connolly at 760-934-8989 x234. Register online at www.mammothrecreation.com.

Public Service Announcements

SNOW SMART WAYS YOU CAN MAKE WINTER A SAFER SEASON

Mammoth Lakes receives some of the heaviest snowfall in California. The Town's snow removal operators work diligently to ensure safe driving conditions for our residents and visitors. Our snow removal operators work around the clock in twelve-hour shifts that may extend for weeks at a time. Priorities are established to consider which streets need to be cleared first in order to maintain emergency access and safe driving conditions throughout the town.

Be Snow Smart by observing a few simple rules:

Child Safety

- Keep children indoors while snow removal operations are under way.
- Children should not play in yards, build snow forts or dig caves near the road during snow removal operations.

Pedestrian Safety

- Don't watch snow removal operations from the edge of the road, and do not walk in-front of snow removal equipment.

Back Off

- While in your vehicle, it is recommended that you stay at least 50 feet behind snow removal equipment. Poor visibility makes it difficult for the operator to see you.
- Passing of a snowplow on the road should be done with extreme caution.

Slow Down

- Excessive speed is the major cause of traffic accidents during winter.
- When chain control conditions are in effect, the maximum speed limit throughout town is 25 mph.
- Black ice frequently forms in shady areas and at night on seemingly clear and dry roads; use extreme caution when driving at night throughout the winter months. Patience goes a long way!

Protect Your Property

- It is a violation of the Town of Mammoth Lakes municipal code to park on any roadway from November 1 through April 30.
- Park all vehicles, including boats and trailers, as far off the roadway as possible and inside the orange snow stakes
- Identify your vehicle's location with poles to keep it visible for snow removal operators.

Light It Up

- Leave the exterior lighting of your home on at night during winter storms. The lights are helpful to snow removal operators who may have poor visibility during storms and assists them in identifying the location of your driveway and home.
- Please identify the entrance to your driveway with reflective poles, placing them a minimum of 2ft. to the property side of the Town's orange snow stakes.

Snow Storage

- When clearing your driveway, do not place snow in the roadway or on the Town's snow storage easement (10ft.-wide area immediately abutting the pavement edge).
- All snow must be stored on your property.
- Please contact the Town of Mammoth Lakes if you require additional snow storage for your property.

Got Questions?

Call... do not try to stop or flag down the snow removal operators in their equipment as they are under instructions not to get out of their cabs while conducting snow removal operations. Instead, please call the Town of Mammoth Lakes:

- Todd Murphy, Maintenance Manager (760) 934-2422 x 23

Chain Restrictions

- R-1: Chains are required on all vehicles under 6,000 pounds except those equipped with snow tires on the drive wheels. All vehicles over 6,000 pounds are required to place chains on the drive wheels.
- R-2: Chains are required on all vehicles except four-wheel drives equipped with snow tires on all four wheels.
- R-3: Chains are required on all vehicles without exception. Please be aware that these designations are for the safety of all and are enforced by public safety officers including our local Mammoth Lakes Police Department, Mono County Sheriff and the Highway Patrol.

The penalty for failure to observe the posted chain controls may include a citation and a severe fine. Remember to always carry chains and use them when required to do so.

Call 800-427-ROAD for current chain control restrictions or road conditions, listen to KMMT 106.5 or look for chain control signs throughout town.

Mammoth Lakes Courthouse Further Furlough Day Closures and Other Service Reductions

In August, the Superior Court of Mono County issued public notice that it would close the Mammoth

Lakes Courthouse every third Friday, from October 31 2014 through the remainder of the fiscal year (13 days). Unfortunately, the Court recently learned that it will not receive supplemental funding it had hoped for. This means that the court must extend its Friday closures to include four additional dates (a total of 17 closure days). These will be unpaid furlough days for court staff. The following is the revised list of Friday closure dates (with the new dates bolded and underlined):

- 2014: October 31, November 14, December 5, December 26
- 2015: January 9, January 16, January 30, February 13, February 20, March 12, March 13, April 3, April 24, May 15, May 22, June 5, June 26.

In addition, increasing workloads and reduced staffing resources compel the court to reduce services to the public beginning January 16, 2015, as follows:

- Reduced Court Clerks' Office Hours—Half Days: Currently, the Mammoth Lakes Courthouse Clerks' Office is open from 8:30 a.m. to 4 p.m., Monday through Friday. Beginning on January 16, 2015, those hours will be reduced.

The office will be open on Monday, Wednesday, and Friday from 8:30 a.m. to 12:30 p.m. and on Tuesday and Thursday from 12 p.m. to 4 p.m.

- Clerks' Office Telephone Hours Eliminated: Beginning on January 16, 2015, court clerks will no longer be able to provide assistance by telephone to the general public. The public may come into the office in person, or submit requests by mail, fax, or e-mail. Any requests submitted by mail should be addressed to: Mono County Superior Court, P.O. Box 1037, Mammoth Lakes, CA 93546. Fax requests may be directed to: 760-924-5419. E-mails may be sent to: superiorcourt@monocourt.org.

On the 17 furlough days listed above, and during the portion of the regular business day that the clerks' office is closed on or after January 16, 2015, a judge will be available to conduct any criminal arraignments and examinations as required by statute, and to sign any orders or documents on an emergency basis. A drop box also will be available at the courthouse to accept same day filings on closure days, and after January 16, 2015 on all other non-holiday week days. All documents deposited before 4:00 pm will receive a same day date and time stamp.

If you would like to submit a written comment regarding the reduced services described in this notice, please address them to: Hector Gonzalez, Court Executive Officer; by e-mail to: SuperiorCourt@monocourt.org; or by regular mail to: P.O. Box 1037, Mammoth Lakes, CA 93546.

Time to Check Wood Burning Appliances

With the change in the seasons, the Mammoth Lakes Fire Protection District would like to remind all users of wood burning appliances to make sure that your heating system is ready to keep you and your family warm this winter. There are numerous activities that one needs to perform on the system to give you heat and a winter free of problems. The National Fire Protection Association reports that a third of the people using wood type heating have never cleaned or inspected their chimneys or stovepipes, or knew that they needed to.

In addition, there are many who have never used wood as a source of heat or who are looking at ways to reduce their heating bills and have decided to add a wood heating source to cut costs. Many are turning to a wood type heating source and will be assuming that the wood heating system that is located in a rented apartment, condo, or house is ready for use. Now is the time to check all of the components of your heating system and to become familiar with how to use wood as a heating source. If you are not qualified to make this type of evaluation, refer to a specialist before use.

There are several simple steps that one can take to ensure that your system will be safe for use:

First, make sure that the device, be it a woodstove, fireplace, or pellet stove, is sound and in good working order. If you do not possess the skills to make this evaluation, refer to a specialist. Part of this evaluation must include an examination of the flue pipe (this includes pellet stove pipes) that exhausts the products of combustion to the outside air. Make sure that all components are sound, have adequate clearance, are clean of all combustible materials, and operational.

Make sure that you are inserting the proper fuel type for the burning device that you are using. The use of seasoned firewood in a fireplace or woodstove is important to keep the amount of creosote buildup to a minimum. Burning higher quality pellets

will also result in less creosote buildup and less ash in a pellet stove. Burning a hot fire will decrease the buildup of creosote while emitting the least amount of the smoke. Also, use dry paper for fire starter and never burn glossy colored paper or pressure treated wood. If using compressed logs, make sure that the manufacturer recommends that this type of fuel can be used in your appliance.

Dispose of the ashes in a proper fashion. Do not place hot ashes outside or in a dumpster. Obtain a metal can for placing hot ashes into and store the ashes inside until completely cold. Remember that a can of ashes can be cold on the surface, but still hot in the center. The quickest way to cool hot ashes is to mix water thoroughly with the ashes in the metal can and let stand for several hours. Then the ashes can be safely placed outside.

Do not store or place anything flammable within 18 inches of a fireplace or wood stove. Code requires that you have a non-combustible surface in front of the stove or fireplace that extends out 18 inches to the front of the unit. Be extra careful with hanging anything above a stove or fireplace.

Check the exterior of the structure to see that the exhaust pipe has 10 feet of clearance around the cap area from any tree limbs and make sure that all needles and dead branches resting on the roof are removed prior to starting your stove or fireplace.

If your unit has a wood burning insert placed inside a zero clearance fireplace box (original fireplace) with factory built metal flue pipes contained in a wooden chase, an evaluation of the concealed clearance to combustible materials needs to be performed. If this situation exists in your unit, per Town Ordinance 13-03, the owner has until October 31, 2022 or upon sale prior to that date, to comply with the conditions of the ordinance. For more information on this item, please contact the Fire Department to schedule an assessment.

If electric heat is being used, vacuum the unit to remove any dust accumulations before startup and ensure that all combustible materials are at least 3 feet from the heating unit at all times.

Remember most home heating fires can be prevented. The winter season results in an increase of structure fire activity and most of these fires are a result of improper heating uses. If you would like any additional information on these topics or anything else pertaining to your safety, please feel free to contact the Mammoth Lakes Fire Station at any time at (760) 934-2300.

Popular Woodstove Replacement Program Back For Limited Time

In response to popular demand, Mono County and Town of Mammoth Lakes officials announce the return of the Woodstove Replacement Program for property owners who want to upgrade from wood-burning stoves and fireplaces to cleaner and more efficient heating systems.

Following an agreement in early 2014 between the Great Basin Air Pollution Control District and Los Angeles Department of Water and Power, Air District Board-member agencies received settlement funds allocated on a per capita basis to pay for air pollution prevention programs across their districts. With several hundred thousand dollars between them, officials from the Town of Mammoth Lakes and Mono County chose to spend their funds on reducing wood smoke emissions from wood-burning heating systems throughout the region.

Similar to the Air District's recent CAPP-funded woodstove replacement program, funding will be provided to local retailers who are contracted by qualified property owners to provide and install the new systems. Shared costs will be required from property owners, with amounts dependent on the new system and installation requirements.

To qualify for program participation, an existing wood-burning system (woodstove or open fireplace) must be a building's primary heat source, it must be located within Mammoth Lakes or Mono County, and it must fall under one of several qualifying categories:

1. Within Mammoth Lakes: For properties purchased in 1990 or earlier* with owners who want to replace pre-1990 wood burning systems, \$1,500 may be available toward the cost of a new EPA Phase II wood-burning system, or \$2,000 toward a new EPA certified pellet stove or gas heating system. Documented proof of property purchase date is required.
2. Newly purchased properties within Mammoth Lakes: For properties required to replace an old, noncompliant wood-burning system by Town Code §8.30.050, and changed title within last few months, \$500 may be available toward a new pellet or gas heating system. Documented proof of property purchase date and submittal of building permit is required. New woodstoves are excluded from this offering.
3. Within Mono County, excluding Mammoth Lakes: For pre-1990 wood burning stoves and open fireplaces (not EPA compliant), \$1,500 may be available toward a new EPA Phase II wood-burning stove or fireplace, or \$2,000 toward a new pellet stove or gas system.
4. Within Mammoth Lakes and Mono County: For woodstoves currently being used which are newer than 1990 (EPA Phase I or II-certified stoves, excluding pellet stoves), \$2,000 may be available toward a new, cleaner-burning pellet stove or gas heating system. This amount applies to replacing post-1990 woodstoves with pellet or gas (propane or kerosene) systems only.

*Mammoth Lakes properties that were purchased or changed ownership after 1990, and not upgraded to EPA certified heating systems (Phase I or Phase II) as required by Town Municipal Code 8.30, do not qualify for funding under this program.

All replaced stoves must also be freely relinquished to the retailer during new installation, and open fireplaces must be rendered inoperable.

This program is open to public participation through local participating retailers only on a 'first come, first served' basis until allocated funds are exhausted, and qualified payments for new systems will only be made to participating retailers.

All interested Mammoth Lakes and Mono County property owners are encouraged to immediately contact one of the participating retailers serving the area: Alpine Stove & Mercantile (760/934-4416); Angelo's Stove & Chimney (760/937-0860), Clean Sweep (760/934- 3453); High Country Lumber (760/924-2720); Manor True Value Hardware for Mono County only (760/873-3106), and Batchelder Enterprises for kerosene heating systems (760/873-3800).

For additional program information, please call (760) 914-0388 or email ljm.isaacs@gmail.com.

Cycling Etiquette and The New Three Feet For Safety Act

The Town will be actively communicating proper cycling etiquette and the rules of the road to both motorists and cyclists when the new "Three Feet for Safety Act" goes into effect September 16, 2014.

Known as the "Three Feet for Safety Act," new state vehicle code section (21760) requires that a driver of a motor vehicle shall not overtake or pass a bicycle proceeding in the same direction on a highway at a distance of less than three feet between any part of the motor vehicle and any part of the bicycle or its operator.

Police Chief Dan Watson is urging all drivers in Mammoth Lakes to comply with the new law. "This law includes public streets and even if three feet is not possible, the motor vehicle must slow to a reasonable and prudent speed and only pass when no danger is present to the bicyclist. Failing to do so can incur a fine, regardless of a collision or not."

Chief Watson also urges all bicyclists to comply with the rules of the road, including stopping for stop signs and pedestrians, riding as far to the right as practicable, and riding in single file. Bicyclists are also encouraged to use the Town's extensive system of bike paths when possible. The Town will not be pursuing a local ordinance to implement the new law as the definition applied is very broad and includes all public streets. It should also be noted that currently the Town of Mammoth Lakes Municipal Code does not prohibit bikes on sidewalks.

Additional information about the "Three Feet for Safety Act," including violations; can be viewed online at: <http://www.dmv.ca.gov/pubs/vctop/d11/vc21760.htm>.

According to the National Highway Traffic Safety Administration (NHTSA) and the Fatality Analysis Reporting System (FARS) that details the factors behind traffic fatalities on our roads, in California (2011), the statewide percentage of bicyclist fatalities was 4.1% of all fatalities, which is nearly twice the national average of 2.1%.

FARS also identified that between 2009 and 2011, collisions between bicycles and motor vehicles are more likely to occur on local roadways than the State Highway System, and 85% of fatalities involving bicycles and 89% of severe injuries involving bicycles occurred on a local road compared to 57% of fatalities overall and 64% of severe injuries overall.

Supporting the passage of AB 1371 (Bradford) was the California Association of Bicycling Organizations (CABO). From the CABO President's point of view, "I support this bill because of my expectation, well hope, that incidences of antagonistic or clueless "buzz-backs"/scary close passing and hit from behind crashes will subside as people learn about the Three Feet for Safety Act."

Local cycling advocate and Eastside Velo (ESV) President John Armstrong hopes that someday a sign will be erected upon entering Mono County that says "We Respect People on Bikes."

ESV has over 200 active members who ride regularly throughout the Eastern Sierra. As an organization, they actively promote proper cycling etiquette and even have a short video on their website that promotes safe and responsible riding practices. Their Top 3 "Rules to Ride by..." are as follows:

1. Be courteous and share the road. Being courteous gains respect and helps make the roads safer for all cyclists.
2. Signal your intentions if you can safely do so. If you are turning, point in the direction you plan on going. If you are slowing, put your hand out behind you.
3. Be friendly. If someone is courteous to you and does the right thing, wave and smile. Everyone likes to be acknowledged for doing the right thing.

Please visit the ESV website (www.eastsidevelo.org) to review the complete list of "Rules to Ride by."

Armstrong hopes that common sense will prevail regarding the new "Three Feet for Safety Act," but understands that the best strategy for cyclist's safety is educating our motoring public.

"Many times on my bike I have been in a situation where a motorist does not slow down. The motorist powers onwards and forces a squeeze play with another vehicle and me, and guess who comes off the worst? Oftentimes I end up in the dirt or on the sidewalk."

To facilitate effective education, Armstrong recommends cyclists and motorists pick up a copy of the new "Quick Guide to Smart Cycling" distributed by the League of American Bicyclists that will be available locally this fall. This full-color, 24-page Quick Guide covers just about everything you need to know to ride a bike safely and confidently, providing an easy-to-understand resource that appeals to all demographics: prospective bicyclists, novice riders, and even seasoned pros.

To read the Smart Cycling Quick Guide online, visit this link: <http://bikeleague.org/quickguide>.

Mammoth Lakes Police Department Reserve Officer Mike Braun will be actively communicating proper cycling etiquette and the rules of the road to both motorists and cyclists within Mammoth Lakes this fall.

"Cyclists have the same rights and duties as drivers. They need to obey traffic signals and stop signs, and most importantly, need to ride with traffic, and use the rightmost lane headed in the direction they are going," stated Braun.

Officer Braun also encourages cyclists to be predictable by making their intentions clear to everyone on the road. "Signal turns and check behind you well before making a turn or changing lanes."

Above all, stay safe, stay visible and ride on the right!

For additional information regarding the new "Three Feet for Safety Act" and proper cycling etiquette, please call the Mammoth Lakes Police Department at (760) 934-2011 or contact Officer Braun at mbraun@townofmammothlakes.ca.gov.

Sierra Conservation Project and Town of Mammoth Lakes Partner to Expand Condominium and Business Recycling Program

The Sierra Conservation Project, Inc. (SCP) and Town of Mammoth Lakes are pleased to announce the expansion of the current condominium, commercial and recreational area recycling programs in the Town of Mammoth Lakes.

"This long-standing and successful partnership between the Sierra Conservation Project and the Town enabled us to submit and receive a substantial \$108,000 CalRecycle grant to expand on-going recycling programs within the community that benefits our residents, visitors and wildlife," stated Peter Bernasconi, Acting Public Works Director for the Town of Mammoth Lakes.

The Sierra Conservation Project is working in partnership with the Town of Mammoth Lakes and the Department of Resources Recycling and Recovery (CalRecycle) to provide an additional 30 bear proof containers to the remaining Condominium complexes in town that currently don't have a recycling program in place. In addition, CalRecycle grant funds will enable SCP to upgrade all commercial bear proof containers at restaurants, bars and other

business locations in town, including the enhancement and placement of recycling infrastructure in the Lakes Basin and at key park locations in Mammoth Lakes, such as the Whitmore Recreation Area and Shady Rest Park.

Recyclable materials make up a large percentage of the waste produced in our residential complexes and businesses," stated Brian Robinette, owner of SCP. "These community-based programs aim to divert recyclable materials from our local landfill, while also educate our residents and visitors on the need for convenient recycling programs. We are confident that by providing start-up infrastructure for these complexes and businesses it will help make program implementation affordable and reduce the environmental impacts of each resident and guest," said Robinette.

To register for the Condominium Recycling Program, please visit www.recyclesierra.com or www.Townofmammothlakes.ca.gov.

For additional information on the **Condominium and Business Recycling Program**, please contact Sierra Conservation Project at (760) 914 0115 or e-mail Brian@recyclesierra.com.

Would You Leave A Loaded Gun on the Floor?

If you have children in your home, hopefully you would not! However, a new threat to the health of our children is emerging. These are e-liquids, sold legally in stores and online in small bottles that may be carelessly and casually left around the house, used for the regular re-filling of e-cigarettes.

The danger is from the nicotine content in these vials of "juice". Children can happen upon a vial and ingest it. These fluids come in flavors and bright colors that are attractive for kids – cotton candy, cherry, chocolate, and bubble gum among others. In addition, nicotine is absorbed through the skin, presenting a risk from a broken vial.

Electronic cigarettes, called e-cigarettes, are drug delivery devices originally designed to look like regular tobacco cigarettes. Now they are larger reusable gadgets that can be refilled with liquid, generally a mixture of nicotine, flavorings, and solvents. It is estimated that roughly four million Americans use these battery powered devices. They have been hailed by proponents as a way for addicted smokers to get their nicotine fix without sucking in the thousands of carcinogens found in traditional cigarettes.

However, the evidence of their effectiveness in assisting persons in weaning off their nicotine addiction is less than stellar. In addition, evidence is rapidly mounting that they are serving as a "gateway" for young teens into the world of nicotine addiction. A recent study found nearly 1.8 million youth had tried e-cigarettes, and the number of middle and high school e-smokers doubled in one year. No wonder the industry targets the young who will be potential customers for decades to come! Their goal – to have the number of e-smokers quadruple in the next few years.

So how bad is the risk of exposure? Nicotine is a naturally occurring powerful neurotoxin, and in its potent liquid form, can be ingested or absorbed through the skin. Tiny amounts can cause vomiting, seizures, and even death. A teaspoon of even the highly diluted liquid can kill a small child.

A dose of 50 to 60 milligrams (mg) is potentially fatal for an adult; a 30 pound child could die from 1.36 mg. A vial of e-juice as commonly sold in retail stores is 17 milliliters, and with a 2.4% concentration would have 408 mg of nicotine. This year it is estimated that 1 to 2 million LITERS of liquid will be sold, much of it on the Internet. A liter of 10%

concentration costs about \$110, a gallon \$195, and one company even offers a 55 gallon drum!

Nationwide, reports of accidental poisonings linked to e-liquids in 2013 jumped 300% from 2012, and is on pace to double again this year. Most cases are under the age of 4. A shop owner says that "We tell them that this stuff is poisonous. We do everything we can to protect the consumers, but at the end of the day, you leave a loaded gun on the floor, and your child gets hold of it, it's not gonna be the gunmaker's responsibility." A CEO of e-cigarette franchises says "It's the wild, wild west right now." There is no FDA regulation so far. So at the moment, if you are a user, your child has to go no farther than your own home to find a lethal dose of poison. Be aware of the risks, and keep vials out of reach. You are responsible for the safety of your children.

Governor Brown Declares Drought State of Emergency

With California facing water shortfalls in the driest year in recorded state history, Governor Edmund G. Brown Jr. today proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for these drought conditions.

"We can't make it rain, but we can be much better prepared for the terrible consequences that California's drought now threatens, including dramatically less water for our farms and communities and increased fires in both urban and rural areas," said Governor Brown. "I've declared this emergency and I'm calling all Californians to conserve water in every way possible."

In the State of Emergency declaration, Governor Brown directed state officials to assist farmers and communities that are economically impacted by dry conditions and to ensure the state can respond if Californians face drinking water shortages. The Governor also directed state agencies to use less water and hire more firefighters and initiated a greatly expanded water conservation public awareness campaign (details at saveourh2o.org).

In addition, the proclamation gives state water officials more flexibility to manage supply throughout California under drought conditions.

State water officials say that California's river and [reservoirs](#) are below their record lows. Manual and electronic readings record the snowpack's statewide water content at about 20 percent of normal average for this time of year.

The Governor's drought State of Emergency follows a series of actions the administration has taken to ensure that California is prepared for record dry conditions. In May 2013, Governor Brown issued an [Executive Order](#) to direct state water officials to expedite the review and processing of voluntary transfers of water and water rights. In December, the Governor formed a [Drought Task Force](#) to review expected water allocations, California's preparedness for water scarcity and whether conditions merit a drought declaration. Earlier this week, the Governor toured the Central Valley and spoke with growers and others impacted by California's record dry conditions.

Mammoth Lakes Police Department Implementing Reserve & Volunteer Program

In an effort to off-set some of the impact resulting from the loss of 7 sworn officers, the Mammoth Lakes Police Department has been moving forward on developing Reserve and Volunteer Programs, and evaluating various forms of technology to help make the MLPD more efficient and effective. The following are some of the programs the MLPD is moving forward on:

RESERVE OFFICER PROGRAM

On February 6, the Town Council approved the establishment of pay scales for Reserve Officers. The pay will be:

- Level 1 Reserve - \$25/hour
- Level 2 Reserve - \$23/hour
- Level 3 Reserve - \$20/hour

Providing pay for Reserve Officers will make the MLPD competitive with other local agencies that have reserve programs and serve as a recruitment and retention tool.

Anyone interested in learning more about the MLPD Reserve Program should contact Sergeant Marc Moscovitz at (760) 934-2011.

VOLUNTEER PROGRAM

Many police departments benefit from active volunteer programs where trained volunteers assist police personnel by staffing front counters, completing reports, and providing community patrols. Retired Sergeant Karen Smart has agreed to manage the MLPD's volunteer program. At some time in the future, information will be released about the types of volunteer work available and the selection criteria. Anyone interested in volunteering with the MLPD should be on the look-out for a news release announcing the start of the program.

TECHNOLOGY

The MLPD is moving forward with technological advances on several fronts. They include:

- An on-line reporting system where certain crimes can be reported on-line.
- An on-line crime and traffic report purchase program where victims of crimes and parties in traffic collisions can purchase copies of reports on-line.
- Access to surveillance cameras at the North Village.
- Surveillance cameras at the Volcom Brothers Skatepark.

The MLPD is also exploring other technology that will make the Police Department more effective in addressing crime, the fear of crime, and quality of life issues.

Free, Real-Time Property Information Now Available!

The Town of Mammoth Lakes and Mono County are proud to present ParcelViewer, the Town and County's official web-based property information system. This free, public, on-line service can be relied upon to provide convenient, accurate and up-to-date information, based on the official Assessor's data-base. Use ParcelViewer to view and print customized parcel information and maps, including:

- Zoning Information
- Property Addresses
- Complex Names/ Condo Unit Numbers
- Parcel Lines*
- Valuation Data
- Acreage
- Aerial imagery of surrounding properties and more!

Visit Parcel Viewer today at <http://gis.mono.ca.gov/parcelviewer/>

Transient Occupancy Tax (TOT) Frequently Asked Questions

Some of the most frequently asked questions about legal rentals and Transient Occupancy Tax (TOT) are:

1. What is a transient rental?

A transient rental is any unit that is occupied for the purpose of sleeping, lodging, or similar reasons for a period of 30 consecutive days or less in exchange for a fee or similar consideration.

2. Can I rent my unit as a transient rental?

Only some zones within the Town of Mammoth Lakes permit transient rentals. The following zones permit transient rentals:

- RMF-2 (Residential Multi-family 2)
- CL (Commercial Lodging)
- CG Commercial General)
- R (Resort, including master plan areas)
- SP (Specific Plan, including North Village and Clearwater)

This list is intended as a guide only. Although the above zones permit transient use generally, other regulations, such as those found in master plans, CC&Rs, or project conditions of approval may prohibit transient rental within a particular development. Generally, transient rental of single family homes is prohibited. A zoning map can be found on the Town's website.

3. What is transient occupancy tax (TOT)?

Transient occupancy tax, or TOT, is a 13% tax that is charged "for the privilege of occupancy of any transient occupancy facility." The tax is required to be paid to the operator of the transient occupancy facility at the time the rent is paid. It is the operator's responsibility to remit the TOT to the Town.

4. Do I need to pay TOT?

If you are renting your unit as a transient rental, even if it is only for one weekend a year, you need to pay TOT. This includes single family homes and other units that are not permitted to rent nightly, but may be doing so illegally. TOT shall be remitted for each night the unit is rented.

5. Do I need a business tax certificate?

Yes, if you are renting your unit on a transient basis.

6. Do I need a transient occupancy tax certificate?

Yes. You are required to purchase a transient occupancy certificate for each rental unit to post in your transient rental property. This is included as part of Schedule E or F in the business tax certificate application.

7. What is the difference between a business tax certificate and a transient occupancy tax certificate?

Business tax is an annual tax and is required for all business activity. The transient occupancy tax certificate is a one-time purchase that is non-transferable. This certificate is required to be posted in your transient rental unit.

8. Do I need a business tax certificate if all of my rentals are handled through a reservation company?

If all of your rentals are handled through a reservation company, most reservation companies will purchase the transient occupancy tax certificate and collect and remit the TOT to the Town. You may wish to check with your reservation company to confirm that this is being taken care of. If you rent your unit by owner in addition to renting with a property management company, you are also required to obtain a separate business tax certificate and transient occupancy tax certificate.

9. How do I apply for a business tax certificate?

The Town's website contains information regarding business tax certificates, including an application for a business tax certificate: <http://www.ci.mammoth-lakes.ca.us/index.aspx?NID=182>. Transient Rentals fall under schedule F for condominium rentals and schedule E for hotels, motels, lodges, and campgrounds. This application can be mailed back to the Town, or submitted in person. The total cost for one unit is \$118.00 (\$65.00 application fee, \$5.00 planning review fee, \$25.00 fee to rent one unit, \$23.00 TOT certificate fee). Additional costs apply for additional units. Business tax certificates are required on or before the first day business commences; penalties will apply for late filings. If you have additional questions regarding this process please contact the Finance Department at (760) 934-8989 ext. 273.

10. Do I have a business tax certificate?

To find out if you have a valid business tax certificate on file, please contact the Finance Department at (760) 934-8989 ext. 273 or your property management company.

11. What is illegal rental activity?

Illegal rental activity is any rental activity that is not consistent with the Town's Zoning Ordinance, or any rental activity that is not compliant with the Transient Occupancy Tax Ordinance. This can include transient rental of units located in zones that prohibit transient rentals. It can also include transient rentals in a zone where it is permitted, but when the TOT is not remitted to the Town.

12. How can I report illegal rental activity?

If you suspect illegal rental activity, you may submit an anonymous tip via the Town's TOT hotline at (760) 934-8989 ext. 275 or on the Town's website via the Transient Occupancy Tax information page. Please include any information that you have that would substantiate the claim, along with the property address and owner's name if you have it. You may also email tot@ci.mammoth-lakes.ca.us. Note that emails are not anonymous, however, staff will do its best to keep your information private.

13. Questions & Anonymous TOT Hotline

If you have questions about TOT enforcement, or if you would like to report suspicious activity or rental advertisements please contact our anonymous hotline. The Town will follow-up on any reports submitted. The Hot Line Number is (760) 934-8989 ext. 275 or email your information to: TOT@ci.mammoth-lakes.ca.us.

Register for CodeRED

Residents of Mono County can register their cell phones to receive emergency CodeRED (reverse 911) alerts from Mono County. This is a county public service available to all Mono County residents so please tell your friends and neighbors in Mono County that they can register for this service. CodeRED announcements are for personal notification and will not replace CERT CAHAN notification. Here is how to sign register/sign up using the INTERNET:

- Go to monosheriff.org
- Scroll down left side panel to CodeRED community notification system;
- Click on it and follow directions.

Town Outdoor Lighting Ordinance

In 2003, the Town implemented an outdoor lighting ordinance to eliminate light pollution and preserve views of our starry skies. The outdoor lighting ordinance was adopted to encourage residents to administer a lighting system that not only promotes public safety and night-time ambiance but to maximize energy conservation. To eliminate glare and light trespass into neighboring properties and roadways, the outdoor lighting fixtures on your property should be shielded and re-directed to shine downward or changed out to a lower wattage. More information about responsible lighting can be found at www.crlaction.org.
