News from the Town Manager

Town Council Meeting – Jan. 6

The next regular meeting of the Mammoth Lakes Town Council has been scheduled for Wednesday, January 6, 2016 beginning at 6:00 p.m. in Suite Z. Visit the [Streaming Media Archive](#) to review the previous meeting minutes or view the webcast Town Council meeting.

Town Office Holiday Schedule

Town offices will be closed to the public on Thursday, December 24, from Noon to 5:00 p.m. and on Friday, December 25, 2015.

January Commission/Committee Meetings

- Jan. 5 Recreation Commission Meeting, Suite Z, 9:00 a.m.
- Jan. 13 Planning and Economic Development Commission, Suite Z, 2:00 p.m.

Mayor's Welcome!

On behalf of the Town of Mammoth Lakes, whether you are a visitor, a local or a business owner, I personally would like to welcome you! We are a town that co-exists with one of the world's greatest natural environments, where we connect visitors and locals with a lifetime of memorable experiences.

Come as you are, do what you love, Mammoth Lakes is a place that provides a true year around destination offering the best alpine recreation opportunities in the country. We embrace new ideas in a safe-vibrant community, one that is proud of our growing, diverse and successful business community. We inspire a great entrepreneurial culture, adding to the vitality of a community where you can live, work, play and prosper.

Mammoth Lakes is surrounded by acres of forest and is bordered by the Ansel Adams and John Muir Wilderness areas and is adjacent to the eastern entrance of Yosemite National Park. Our collective diversity allows us to maintain and improve the quality of life that so many individuals come to Mammoth Lakes to enjoy.

To understand and learn more about the Town's vision, accomplishments, projects and goals, please take the time to read our 2007 Town of Mammoth Lakes General Plan and other information which is located on our town website: (www.townofmammothlakes.ca.gov).

I trust you have already experienced the greatness of what Mammoth Lakes and our surrounding area has to offer. As the founder of Mammoth Mountain Ski Area Dave McCoy has stated many times, get outside and have FUN!

Sincerely,

Michael J. Raimondo
Mayor
Town of Mammoth Lakes

Winter Parking Restrictions In Effect

The Mammoth Lakes Police Department is reminding citizens that winter parking restrictions went into effect on November 1, 2015. Per Mammoth Lakes Town Ordinance (MLTO) 10.12.100, there is no street parking from November 1 through April 30. This parking restriction is in effect and enforced, even if there is no snow. Vehicles must also be parked in a way as to not obstruct snow removal (MLTO 10.12.106). Additionally, there is time-restricted parking on the 6000-6200 block of Minaret Road in front of The Village, the 100 block of Canyon Boulevard at The Village, the Community Center at 1000 Forest Trail, and several designated roads as indicated by signage (MLTO 10.12.082). Parking enforcement will be monitoring for illegal parking and issuing citations. Vehicles found parked in violation of these ordinances are subject to receiving a parking citation and/or in some cases, vehicles may be impounded at the owner's expense. For more information, please contact the Mammoth Lakes Police Department at (760) 934-2011.

Notify Me!

Receive updates sent directly to your email or phone from the Town of Mammoth Lakes by subscribing to "Notify Me." Found on the left side of www.townofmammothlakes.ca.gov, stay current with Public Service Announcements, Emergency Alerts, Town e-News, Recreation This Week, No Burn Announcements, DNDP updates, bid postings, news flash, calendar items, and more! Make smart decisions, subscribe today.

TV 51 has moved!

The Town's dedicated channel, TV 51 has moved to Channel 18. The move was necessitated by Suddenlink and their local programming needs. TV Channel 18 will still continue to provide access to all the Town's meetings with live and taped coverage of Town Council, and advisory body meetings such as the Planning and Economic Development Commission and Recreation Commission. For meeting dates and times, please visit: www.townofmammothlakes.ca.gov.

MLPD Friday Update – Nov. 22

CALLS FOR SERVICE/OFFICER OBSERVATIONS

- 40, including 0 business/building checks

CRIME/INCIDENT REPORTS

- 13 reports, including 1 arrests

TRAFFIC STOPS/CITATIONS/TRAFFIC COLLISIONS

- 13 stops; 4 citations; 1 parking citations; 0 skate park citations; 1 collision

ANIMAL CONTROL INCIDENTS

- 0 incidents; 0 report

WILDLIFE

- 4 calls; 0 reports

Projected Average Resort Occupancy

- Friday, December 18, 2015 = 67%
- Saturday, December 19, 2015 = 87%

(65% same weekend in 2014, up in 2015)

- Sunday, December 20, 2015 = 85%
- Monday, December 21, 2015 = 85%
- Tuesday, December 22, 2015 = 81%
- Wednesday, December 23, 2015 81%
- Thursday, December 24, 2015 = 88%

(73% same midweek in 2014, up in 2015)

Hotels/Motels/B&B:

- Friday-Saturday = 81%
- Sunday-Thursday = 84%

Condos:

- Friday-Saturday = 67%
- Sunday-Thursday = 85%

Outlook for the following weekend:

- Friday, December 25, 2015 = 92%
- Saturday, December 26, 2015 = 96%

Please remember that the projected occupancy is calculated in order to assist the business community with staffing levels and product ordering. The actual occupancy percentages are reported from the lodging industry to the Town of Mammoth Lakes Finance Department.

Community News

Holiday Fire Safety Advice from the Fire District

Decorating homes and businesses is a basic part of the holiday season. Unfortunately, these same decorations may increase your chances of fire. An estimated 250 home fires involving Christmas trees and another 170 home fires involving holiday lights and other decorative lighting occur each year. These types of fires result in several deaths and numerous injuries. Following a few simple fire safety tips can keep electric lights, candles, and Christmas trees from creating a tragedy. Learn how to prevent a fire and what to do in case a fire starts in your home. Make sure all exits are accessible and not blocked by decorations or trees. Help ensure that you and your family have a fire safe holiday season.

Christmas Trees

What's a traditional Christmas morning scene without a beautifully decorated tree? If your household includes a natural cut tree in its festivities, make sure that you – "keep the tree watered." Typically, shorts in electrical lights or open flames from candles, lighters or matches start tree fires. A dry and neglected tree can be a serious problem. Keep your tree well-watered and remove from the structure if many needles begin falling from the tree. When selecting a tree look for a fresh tree that is green with needles that are hard to pull back from the branches and do not break. The trunk should be sticky to the touch and cut 1 inch from the trunk before placing in a watered stand. Old trees can be identified by bouncing the tree trunk on the ground and if many needles fall off, the tree was cut too long ago, has dried out. Do not place your tree close to a heat source, including a fireplace or heat vent. The heat will dry out the tree, causing it to be more easily ignited by heat, flame or sparks. Do not put your cut tree up too early or leave it up for longer than two weeks. Keep the tree stand filled with water at all times.

Use Only Nonflammable Holiday Decorations

All decorations should be nonflammable or flame-retardant and placed away from heat vents. If you are using a metallic or artificial tree, make sure it is flame retardant.

Maintain Your Holiday Lights

Inspect holiday lights each year for frayed wires, bare spots, gaps in the insulation, broken or cracked sockets, and excessive kinking or wear before putting them up. Use only lighting listed by an approved testing laboratory.

Do Not Overload Electrical Outlets

Do not link more than three light strands, unless the directions indicate it is safe. Connect strings of lights to an extension cord before plugging the cord into the outlet. Make sure to periodically check the wires – they should not be warm to the touch.

Do not leave holiday lights on overnight or unattended!

Don't Block Exits

Ensure that trees and other holiday decorations do not block an exit way. In the event of a fire, time is of the essence. A blocked entry/exit way puts you and your family at risk.

Never Put Wrapping Paper in the Fireplace

Wrapping paper in the fireplace can result in a very large fire, throwing off dangerous sparks and embers that may result in a chimney fire. Wrapping paper may also contain toxins that are not safe to breathe if allowed to burn.

Beware of Snow Covered Ponds/Lakes

While snow covered ponds and lakes may appear inviting, prior to the recent storms, ice development was marginal and in many places did not thicken to adequately support significant weight. As a result persons may obtain a false sense of security when looking at a snow covered lake. With the holidays quickly approaching, emergency responders want to ensure that the word is out there that this may not be the year to venture out on snow covered lakes, at least not at this point in the winter season. Please be extra careful around our lakes and be very observant of children and pets.

The Mammoth Lakes Fire Protection District wishes you a very happy and safe holiday season. For more information or for any questions pertaining to fire related issues, please feel free to contact the Mammoth Lakes Fire Department at (760) 934-2300.

Winter Recreation: Play it Safe

The Inyo National Forest has some timely advice for winter recreation enthusiasts. Winter recreationists must plan their adventure considering the current conditions, the weather forecast, and the terrain and geography that will be traveled. Knowing what to expect will make your winter visit safer and much more enjoyable.

Anyone who may be traveling in potential avalanche terrain is encouraged to seek education and training resources; travel with a shovel, beacon, and probe; and have the knowledge required to use these tools. Visit the Eastern Sierra Avalanche Center website for the most recent information on snowpack and conditions www.esavalanche.org.

Ice skating is popular as well, but recreationists must carefully choose when they go onto the ice. No lake is certain to be safe with an adequate ice depth. Even though it has been cold, the ice is not necessarily deep enough. Cooling and warming trends can affect the ice significantly—recreationalists are responsible to assess their risks before going out onto the ice.

Dress warmly for cold weather, including layers, wicking base layers, hats and gloves. Day-time temperatures can get warm with the sun and cool quickly in the evening. As always, don't underestimate weather in the High Sierra – expect that weather conditions can change rapidly.

The forest requires that all dogs are on a leash in all developed recreation sites, including groomed trails. Leaving pet waste behind on a groomed trail or in a developed recreation area is littering.

More snow is needed before the Shady Rest Nordic trails can be groomed. Additional snow accumulations are needed to begin grooming the snowmobile trail system. There is not enough (if any) snow on these trails.

Annual MHS Booster Christmas Tree Sale!

Magnificent Christmas Trees from Oregon/Washington will be on sale beginning this Saturday, December 5, 2015 in the MHS Booster Christmas Tree Lot at Vons (Minaret Village Mall).

This is the major Mammoth High School Booster fundraiser for the season so please consider supporting a local and worthy cause. Proceeds benefit the College Book Awards, MHS Sport Teams, ASB/NHS, Fishing, Drama and Band clubs, teacher special projects and requests, teacher appreciation luncheons, assembles and the new gym floor capital campaign.

DETAILS: Douglas, Noble and Grand Firs are for sale ranging in size from 4-9 feet, starting from as low as \$25. Wooden tree stands and Christmas tree lights will also be available for sale at the lot. Cash, checks, credit cards accepted. Christmas Trees may also be purchased outside of the sale hours from the Vons Customer Service Desk (only cash and checks will be accepted).

HOURS Saturday & Sunday: 11:00 a.m. - 7:00 p.m. **and** Monday-Friday: 3:00 p.m. - 7:00 p.m.

TREE SIZE & PRICE

Table Top trees	\$25
Blue: 4-5ft.	\$50
Red: 5-6ft.	\$60
Yellow: 6-7ft.	\$70
Green: 7-8ft.	\$80
White: 8-9ft.	\$90
Wooden Tree stands	\$5
Colored/White Lights	\$6/box

For additional information regarding Christmas Tree sales please contact Geoff Wolfe, Christmas Tree Coordinator at (760) 709-2260. Happy Holidays from the Boosters!

'Church Basement Ladies' Serves Up Humor, Music For The Holidays – Dec. 17

The kitchen is the heart of any home—especially during the holidays—and the same could be said about the church basement kitchen in the funny and down-to-earth musical comedy, ***Church Basement Ladies***. Presented by Mammoth Lakes Repertory Theatre (MLRT), *Church Basement Ladies* serves up heart-warming holiday humor as four women overcome various challenges through hilarious antics, toe-tapping songs, and lessons learned. The show opens Dec. 17 on the Edison Theatre stage and runs Thursdays to Saturdays at 7 p.m. and Sundays at 4 p.m. until Jan. 3, 2016 (no shows Dec. 24, 25, and 31).

"I've been wanting to work with Playhouse 395 for years now," said MLRT's Artistic Director **Shira Dubrovner**. "It just took the right project. Having three talented veterans of Playhouse 395, including its Artistic Director **Martha Reynolds**, in this show is a dream come true."

Set in the basement kitchen of the fictitious West Cornucopia Lutheran Church of the Prairie in rural Minnesota, the musical finds its four hard-working ladies—and its one frequently befuddled pastor—cooking meals and solving problems during a holiday Lutefisk dinner, a funeral, an Easter fundraiser, and a wedding. They stave off potential disasters (like—gasp!—interfaith marriage), share and debate recipes,

instruct the young, and keep the pastor on due course while thoroughly enjoying—and bonding with—one other.

Based on the best-selling book "Growing Up Lutheran," the musical has been charming audiences across the nation since 2005. Director **Juliana Olinka** brings the show to the Eastern Sierra community.

"I love being able to entertain people of all ages," said Olinka. "Comedy and music are my passion and bringing this show to life with such an outstanding group of people on stage and behind the scenes is a holiday treat for me."

The cast features **Reynolds**, Director for Playhouse 395's upcoming show, *Chicago* (casting call Dec. 4 & 5, call 760-920-8817 to make an appointment), who portrays the widow and matriarch of the kitchen, Vivian; **Karen Keehn**, Playhouse 395's board member and recently seen starring in its *Hello Dolly*, plays the able-bodied farm wife and jack-of-all-trades, Mavis; **Jessica Burchett**, last seen in Playhouse 395's *South Pacific*, plays the role of Karin, the best cook in the kitchen; **Cassie Burgenbaugh**, last seen in MLRT's *Go, Dog. Go!* and *Winter Wonderettes*, plays Karin's daughter, Signe; and **Tim Casey**, last seen in MLRT's *Go, Dog. Go!* and *Of Mice And Men*, plays Pastor E. L. Gunderson. Musical directors **Dave Hardin** and **Zona Snyder** are also regular participants in Playhouse 395 productions, and local choreographer **Sarah Lawrence** rounds out the production staff.

Church Basement Ladies will be cooking up some laughs from Dec. 17 through Jan. 3, 2015. Performances are Thursdays through Saturdays at 7 p.m. and Sundays at 4 p.m. Please note that there are no shows on Dec. 24, 25, and 31. Ticket prices online are \$20 for general admission, \$18 for seniors, and \$10 for students. Tickets at the door are \$22; sorry no discounts. Reserve your seat during the busy holiday season at www.MammothLakesRepertoryTheatre.org or by calling 760-934-6592. See you at the Edison!

QUICK FACTS

What: Holiday musical, **Church Basement Ladies**

When: Dec. 17 – Jan. 3, 2016, Thursdays through Saturdays at 7 p.m.; Sundays at 4 p.m.; closed Dec. 24, 25, 31

Where: The Edison Theatre, 100 College Parkway, Mammoth Lakes

Tickets: \$20 for general admission, \$18 for seniors, and \$10 for students. Tickets at the door are \$22, sorry no discounts.

Contact: www.MammothLakesRepertoryTheatre.org or 760-934-6592

Nature Valley Nastar Races - Dec 21-31

All NASTAR races take place on a giant slalom course and are open to the public; no previous racing experience is required. Participants compete within their age and gender groups to win platinum, gold, silver and bronze medals. Course is open from 10:30am–2:30pm on race days. Visit MammothMountain.com to learn more. Please note: there will be no race on Dec 25.

Full Moon Tours - Dec 23-25

Take in the moon-lit scenic beauty on this is guided-tour. Depart the Ski Center at 7pm for a 1.5 hour after dark excursion, then gather for fireside refreshments inside Tamarack Lodge. \$55/person, includes rentals. Space is limited, reservations required through 800.MAMMOTH.

A Very Merry Chixmas With Stacey Cook - Dec 27

Join two-time Olympian, World Cup champion and Mammoth Team Athlete, Stacey Cook for a holiday ski experience like no other. Two session available with private ski time, water color painting class with wine, plus a "rotating restaurant" on the Panorama Gondola.

Inyo National Forest Plans Fall Prescribed Fires

The Mammoth and Mono Lake Ranger Districts of the Inyo National Forest are planning to implement several prescribed fire projects for habitat improvement and hazardous fuels reduction in the upcoming fall and winter months.

Prescribed fires will be conducted when weather and fuel moisture conditions are within prescription to safely accomplish the project objectives. By prescribing the fire under optimum weather conditions, managers simulate the natural role of fire. This reduces forest competition, opens gaps in the forest canopy for sunlight to shine through, and recycles nutrients to the soil for re-growth.

Smoke may be visible at times from Highways 395, 158, 167, 120 and 203, as well as the communities of Bridgeport, Mono City, Lee Vining, June Lake, Mammoth Lakes and Crowley Lake. All prescribed fire activities will be coordinated with Great Basin Unified Air Pollution Control District in accordance with air resource objectives.

Understory burning in the Jeffrey pine forest is expected to begin in late October or early November:

- East of Highway 395 on National Forest lands near Bald Mountain.
- West of the Oh Ridge Gun Range near June Lake.

Following the accumulation of snow from fall storms, pile burning will be conducted, and is expected to continue into early winter.

Pile burning is planned on National Forest lands in the Mammoth District in the Reds Meadow Valley, north of Panorama Dome, west of Mammoth Lakes, east and west of Highway 395 near Smokey Bear Flat, around Mammoth Lakes Pack Outfit, west of the Crestview Rest Stop on Highway 395, west of Highway 395 along Deadman Creek Road north to Wilson Butte, southeast of the Town of Mammoth Lakes along Mammoth and Sherwin Creek Roads.

In the June Lake area pile burning is planned on National Forest Lands on Reversed Peak and in the Down Canyon and Peterson Tract areas, and east of Highway 395 at the June Lake Junction.

In the Lee Vining area, pile burning is planned on National Forest lands at the Lee Vining Ranger Station on Tioga Pass Road and on BLM lands west of Highway 395 at Green Creek Road (south of Bridgeport).

For further information, please call Deb Schweizer at (760) 873-2427.

Recreation Department Highlights

Get Your Skates On Mammoth Lakes!

The Mammoth Ice Rink is fully operational for the holidays! Holiday skate is scheduled daily – weather permitting – from noon to 3pm, 3:30 to 6:30pm and from 7 to 10pm. The Mammoth Ice Rink offers satellite radio, evening fire-pits, quality rentals, skate sharpening service, and hot snacks & drinks, all on refrigerated and professionally maintained ice. You can also get your 6th visit free with the purchase of the 5 SKATE PASS. The Mammoth Ice Rink is located at 416 Sierra Park Road, adjacent to the Mammoth Lakes Library. For the complete winter schedule, rates and events, please visit www.mammothicerink.com or call (760) 934-2505 during operating hours. We'll see you at the Mammoth Ice Rink!

LA Kings Daryl Evans Triple Threat Camp – Jan. 29

Join LA Kings Alumnus and Radio Color Commentator Daryl Evans for a 3-day LA Kings Hockey Development Camp from January 29-31, 2016 at the Mammoth Ice Rink. The \$275 registration fee includes 2 hours of on-ice instruction, 1 hour of off-ice conditioning each day with a game on the last day of camp. Lunch and snacks will be provided all 3 days and includes a personalized Camp Jersey. This camp is appropriate for youth players ages 5-15. Register online only at LAKINGS.COM/mammothcamp. For additional information please email HOCKEY@LAKINGS.COM or call (310) 535-4472.

Public Service Announcements

We're Here to Get You There: Winter weather is not predictable - Be Prepared

The California Department of Transportation (Caltrans) and the California Department of Highway Patrol (CHP) want you to get where you're going safely this winter. The following are some driving tips that will help you prepare for winter driving conditions:

Winterize your car – Check your brakes, windshield wipers, exhaust system and heater/defroster to make sure they are in good working condition. Check your radiator fluid level and add antifreeze/coolant as needed. Replace wiper blades if needed. Add a winter formula windshield wiper fluid. Make sure your tires are properly inflated and the tread is in good condition

Check road conditions frequently –During Storms, call 1-800 ROAD (7623) or check the internet at <http://quickmap.dot.ca.gov>

Carry in your car - a flashlight with extra batteries, blanket, extra clothing, water and snacks, towel, gloves, ice scraper/deicer, shovel, small broom, spare key, sand/kitty litter.

Allow enough time - Slow down.

Don't panic - If you begin to slide while driving on snow or ice, slowly take your foot off the gas pedal and steer your vehicle in the direction you wish to travel. If you must use brakes and your vehicle is equipped with anti-lock brakes (ABS), apply firm steady pressure. If you do not have ABS brakes gently pump the brake pedal. Do not allow the brakes to lock up.

Black Ice – Black ice is nearly invisible. The temperature doesn't have to be below freezing in order for ice to form on road surfaces. Ice can form, especially when it's windy, when the air temperature drops below 40 degrees. Low or shaded areas surrounded by landscaping or with a nearby source of water, such as bridges and underpasses, can have icy spots.

Be observant - Do not pass snow removal equipment unless the operator directs you to.

Stay with your vehicle - If you become stranded stay with your vehicle. Conserve fuel while maintaining warmth and be aware of possible exhaust or carbon monoxide problems.

Chains – All vehicles, including those with four-wheel drive and snow tires are required to carry chains when traveling in areas that have chain control. Make sure they are the correct size for your tires and in proper working order. Chains must be installed on drive wheels. Know if your vehicle has front or rear wheel drive. Cable chains are acceptable, but may not provide as much traction as traditional chains. The speed limit when chains are required is 25, 30, or 35 MPH: it is posted and enforced. Chain installers may be available to help install your chains. They are not Caltrans employees. They are independent business people who are licensed to install chains. If you choose to use their services ask for a receipt that includes the installer's badge number. Chain installers are not allowed to sell or rent chains. When removing chains or installing chains, drive beyond the signs reading "Chain Control/End Chain Control." Pull over out of the lanes of traffic.

Chain Control Information

- R-1 – Chains or snow tread tires with a tread depth of 6/32" and a "M&S", "MS", "M+S", or "M/S" imprint on the tire's sidewall.
- R-2 – Chains required on all vehicles except four-wheel or all-wheel drives with snow tread tires on all four wheels. Engage the four-wheel drive in the 4-high.
- R-3 – Chains required on all vehicles; no exceptions.

Tires – To find out if your tire tread depth is at least 6/32", place a quarter into several tread grooves across a tire. With George Washington's head upright, if the bottom of his neck completely disappears, your tread depth is at least 6/32". If you can see any part of the bottom of George Washington's neck, your tread depth is at or below 6/32" and should be checked. Remember to check to make sure the tires have the imprint "M&S", "MS", "M+S", or "M/S" which indicate the tire is rated for mud/snow conditions. You may also see the mountain snowflake symbol on the tire.

High winds and blowing snow often cause zero visibility conditions. To protect travelers, the CHP may close the road temporarily until conditions improve. During winter storms spinouts and accidents happen closing the highway. Heavily traveled routes are particularly vulnerable to such closures. Caltrans may meter traffic during the storm, letting fewer vehicles into the area reducing congestion and giving motorists the option of turning around and waiting out the delay in a warm place.

Mountain Lion Activity in the Crowley Lake Area

On Tuesday, November 17, a mountain lion attacked a dog near Mountain View Drive. The dog was badly mauled but survived the attack. On Saturday, November 21, a mountain lion attacked and killed a llama near Willowbrook Road. We do not know if both attacks were by the same mountain lion.

Mountain lions are solitary and elusive, and their nature is to avoid humans. They are most active at dawn, dusk and night. Mountain lions prefer deer, but they also eat pets and livestock. In extremely rare cases, people have fallen prey to mountain lions.

Although mountain lions are neither threatened nor endangered, they are a specially protected species in California, and it is illegal to hunt or otherwise take a mountain lion absent specific circumstances. Mountain lions that threaten people are immediately killed. Those that prey on pets or livestock can be killed by a property owner after the required depredation permit is secured. Moving problem mountain lions is not an option. It causes deadly conflicts with other mountain lions already there, or the relocated mountain lion returns.

To keep your family and animals safe, please heed the following advice:

- Do not hike, bike, or jog alone and avoid hiking or jogging when mountain lions are most active.
- Don't leave small children or pets outside unattended.
- Keep a close watch on small children.
- Do not approach a mountain lion.
- If you encounter a mountain lion, do not run; instead, face the animal, make noise and try to look bigger by waving your arms; throw rocks or other objects. Pick up small children.
- If attacked, fight back.
- If a mountain lion attacks a person, immediately call 911.
- Don't feed deer; it is illegal in California and it will attract mountain lions.
- Deer-proof landscaping by avoiding plants that deer like to eat.
- Trim brush to reduce hiding places for mountain lions.
- Install motion-sensitive lighting around the house.
- Provide sturdy, covered shelters for sheep, goats, and other vulnerable animals.
- Don't allow pets outside when mountain lions are most active.
- Bring pet food inside to avoid attracting potential mountain lion prey.

Town's Owner-Occupant Housing Rehabilitation Program

California Department of Housing and Community Development ("HCD") has awarded the Town of Mammoth Lakes a \$186,047 grant to administer a Housing Rehabilitation Program. Mammoth Lakes Housing, Inc. (MLH) as the "Program Operator," will administer the program. The funding may be used by property owners to update homes, attend to deferred maintenance, and address energy efficiency.

Property owners in Mammoth Lakes can benefit from this subsidy in the form of deferred payment loans, below market interest rate loans, and grants. Owners may use program funds to rehabilitate their home for the following eligible improvements:

1. **Correct health and safety issues;**
2. **Converting to current Uniform Building Code;**
3. **Energy conservation improvements;**
4. **Extension of useful life** (includes repairing siding, sheet rock, painting, new flooring, new cabinets, new interior doors, gutters and foundation upgrades and repairs); and
5. **General property improvements.**

To qualify for program funding, an existing homeowner must occupy the home and the household income must be equal to, or less than the following:

1 person	\$43,250
2 person	\$49,400
3 person	\$55,600
4 person	\$61,750
5 person	\$66,700
6 person	\$71,650
7 person	\$76,600
8 person	\$81,550

Units must be located within the Town of Mammoth Lakes in order to qualify for rehabilitation funds. General property improvements that enhance the overall exterior appearance of the property will be limited to 15% of the rehabilitation loan amount.

Funds will be allocated on a 'first come, first served' basis until all funding is exhausted. All interested Mammoth Lakes property owners are encouraged to immediately contact Mammoth Lakes Housing for additional information, eligibility requirements, and an application.

Eastern Sierra Transit Expands Mammoth Express Route!

Eastern Sierra Transit is making your commute between Bishop and Mammoth a little easier. Starting Monday, July 6, 2015, there will two additional runs on the Mammoth Express route to accommodate an 8 to 5 work schedule in Mammoth. The bus will depart Bishop Kmart/Vons Center at 6:50am. There is a 5:20pm and now 7:00pm departure from Mammoth to accommodate those who may need to work a little later or want to stay in Mammoth for dinner.

The new departure times are:

North from Bishop - Kmart/Vons			
6:50am	7:30am	1:00pm	6:10pm

South from Mammoth - McDonalds			
7:50am	2:05pm	5:20pm	7:00pm

The Mammoth Express also stops at Tom's Place (by request only) and at the Crowley Lake Community Center. All busses have bike racks available on a first come first served basis.

Commuting with Eastern Sierra Transit is very economical. There are several pass options available to reduce the cost of commuting even further. Discounted one-way fares and 10-puch passes are offered to seniors 60+, disabled, and youth 5-16.

MAMMOTH EXPRESS FARES

		Adult	Disc	10-Punch	10-P Disc	1 Week	2 Week
Bishop to:	Mammoth	\$7.00	\$6.00	\$63.00	\$54.00	\$52.50	\$98.00
Tom's Place to:	Mammoth	\$4.00	\$3.50	\$36.00	\$31.50	\$30.00	\$56.00

Crowley to:	Mammoth	\$3.00	\$2.50	\$27.00	\$22.50	\$22.50	\$42.00

Reduction of Wildland Fire Fuels

Website: <http://www.mlfd.ca.gov>

Now that winter seems to have faded, the Mammoth Lakes Fire Protection District (MLFD) wants to remind residents of your responsibility to keep your property fire safe. Long term residents are aware of the wildland fire incidence that can occur around town and especially after dry winters and with windy, hot, dry summers. From just about anywhere in town one can see the results of previous fire activity and the scars that have been left behind.

Establishing and maintaining defensible space around our property is all of our responsibilities. We are all part of the team that will protect our community should we find ourselves in the situation of a wildfire threatening town. A well-maintained landscape enhances the beauty and value of any property— and just as importantly, the work serves as a fuel break. The goal is to keep your landscape lean, clean and green. The following steps can reduce your home’s vulnerability from the threat of wildfire and reduce your use of irrigation.

ZONE 1: 30 feet or more adjacent to the home and beyond attachments such as wooden decks.

- Within the first 10 feet of the home, use nonflammable landscaping materials (rock, pavers), or low level annuals or perennials less than 18 inches in height. There should be nothing flammable within 10 feet of the home.
- Keep this area lightly irrigated and free from dead or dry vegetation, combustible debris, and accumulations of leaf and needle litter. Plants should be carefully spaced, low growing and free of vegetation high in resins, oils, and waxes that burn easily. Mow lawns regularly.
- Prune all trees up 1/3 the height of the tree or so the lowest limbs are 10-15 feet from the ground. If adjacent to a structure, prune up to the eave level. Clearance shall be a minimum of 10 feet from chimneys/stovepipes. Keep roof surfaces clear.
- Thin out living vegetation 30 to 50% within this zone to decrease fire intensity and continuous path of travel.
- Allow space between tops of trees to reduce the risk of crown fire.
- Keep firewood stacks/piles at least 30 feet from the home. If this is not possible, from June 1 to September 30, cover entire woodpile with properly secured, fire resistive, California State Fire Marshal tagged tarp.
- Water plants and trees as needed to ensure they are healthy. Do not use finely shredded mulch and mulch should be wetted periodically.
- Areas around and above propane tanks need to be kept clear of vegetation for 10 feet.

ZONE 2: Approximately 30 to 100 feet from the home (if your property size permits).

- Leave approximately 30 feet between clusters of two to three trees, or approximately 20 feet between individual trees. Do not remove more than 1/3 of the crown density.

- Limit vegetation that serves as a link between low level vegetation and tree tops (ladder fuels).
- Prune trees so branches and leaves are at least 10-15 feet above the ground.
- Give yourself added protection with "fuel breaks," such as gravel walkways, and lawns.
- Remove any dead or dying material from yard and break up continuous patches of brush species to slow fire advance and decrease heat productivity.

Property owners who are unable to do this work themselves are encouraged to hire a licensed professional who both understand this information and can apply it to the property. MLFD maintains a list of qualified contractors that can perform this work.

Failure to comply with the regulations and clear your property in a timely fashion is not only expensive, but endangers the lives and homes of your neighbors, the community, and the firefighters who protect them.

If you would like more information on this or any other fire safety related matter, please feel free to contact the Mammoth Lakes Fire Department at (760) 934-2300.

Local Woodstove Replacement Program A Great Success - Limited Funds Remain

A successful Town of Mammoth Lakes woodstove replacement program comes to an end after replacing 150 older wood-burning systems resulting in the annual reduction of thousands of pounds of particulate matter. Mono County still has a small amount of public benefit funds remaining, or enough to provide for several more installations across the County.

There has been a silver lining to Mono County's dry winter months: With funding from local government agencies, new and much more efficient and cleaner heating systems have been installed to replace old fireplaces and woodstoves throughout the area all winter long!

In addition to the economic benefits, air quality has been improved. Each new heating system emits far fewer pounds of wood-smoke emissions than the older log-burning systems. According to U.S. EPA figures, an open fireplace burning logs emits over 46 pounds of 'particulate matter' (PM) per ton of wood burned (average amounts vary with wood type and dryness), while a new fireplace insert burning the same wood emits about 29 pounds of PM emissions per ton burned. A new pellet insert emits only around 6 pounds of PM per ton of pellets burned.

With almost \$275,000 in 'Environmental Public Benefit Funds' provided by the local Air District, the Town of Mammoth Lakes was able to help fund the replacement of around 150 older wood-burning systems throughout Town, resulting in the annual reduction of thousands of pounds of PM as well as the reduction of carbon monoxide, sulphur dioxide, nitrous oxides, and volatile organic compounds.

And while the Town's Woodstove Replacement Program is closed, Mono County still has a small amount of public benefit funds remaining, or enough to provide for several more installations across the County. All funds are committed on a 'first come, first served' basis, and interested property owners are encouraged to immediately contact a participating woodstove retailer. Shared costs will be required.

To qualify for funding, an existing wood-burning system (woodstove or open fireplace) must be a building's primary heat source, it must be located within Mono County (apart from Mammoth Lakes), and it must fall under one of two types for designated funding:

- 1) For pre-1990 wood burning stoves and open fireplaces (not EPA compliant), \$1,500 may be available toward a new EPA Phase II wood-burning stove or fireplace, or \$2,000 toward a new pellet stove or gas system.
- 2) For woodstoves currently being used that are newer than 1990 (EPA Phase I or II-certified stoves, excluding pellet stoves), \$2,000 may be available toward a new, cleaner-burning pellet stove or gas heating system.

Participating retailers serving Mono County: Alpine Stove & Mercantile (760) 934-4416; Angelo's Stove & Chimney (760) 937-0860, Clean Sweep (760) 934-3453; High Country Lumber (760) 873-5874 - ask for Kim Jones; Manor True Value Hardware (760) 873-3106, and Batchelder Enterprises for new kerosene heating systems (760) 873-3800. For additional information, please contact: Lisa Isaacs, Administrator, Woodstove Replacement Program at (760) 914-0388.

Sierra Conservation Project and Town of Mammoth Lakes Partner to Expand Condominium and Business Recycling Program

The Sierra Conservation Project, Inc. (SCP) and Town of Mammoth Lakes are pleased to announce the expansion of the current condominium, commercial and recreational area recycling programs in the Town of Mammoth Lakes.

"This long-standing and successful partnership between the Sierra Conservation Project and the Town enabled us to submit and receive a substantial \$108,000 CalRecycle grant to expand on-going recycling programs within the community that benefits our residents, visitors and wildlife," stated Peter Bernasconi, Acting Public Works Director for the Town of Mammoth Lakes.

The Sierra Conservation Project is working in partnership with the Town of Mammoth Lakes and the Department of Resources Recycling and Recovery (CalRecycle) to provide an additional 30 bear proof containers to the remaining Condominium complexes in town that currently don't have a recycling program in place. In addition, CalRecycle grant funds will enable SCP to upgrade all commercial bear proof containers at restaurants, bars and other business locations in town, including the enhancement and placement of recycling infrastructure in the Lakes Basin and at key park locations in Mammoth Lakes, such as the Whitmore Recreation Area and Shady Rest Park.

Recyclable materials make up a large percentage of the waste produced in our residential complexes and businesses," stated Brian Robinette, owner of SCP. "These community-based programs aim to divert recyclable materials from our local landfill, while also educate our residents and visitors on the need for need for convenient recycling programs. We are confident that by providing start-up infrastructure for these complexes and businesses it will help make program implementation affordable and reduce the environmental impacts of each resident and guest," said Robinette.

To register for the Condominium Recycling Program, please visit www.recyclesierra.com or www.Townofmammothlakes.ca.gov.

For additional information on the **Condominium and Business Recycling Program**, please contact Sierra Conservation Project at (760) 914 0115 or e-mail Brian@recyclesierra.com.

Would You Leave A Loaded Gun on the Floor?

If you have children in your home, hopefully you would not! However, a new threat to the health of our children is emerging. These are e-liquids, sold legally in stores and online in small bottles that may be carelessly and casually left around the house, used for the regular re-filling of e-cigarettes.

The danger is from the nicotine content in these vials of "juice". Children can happen upon a vial and ingest it. These fluids come in flavors and bright colors that are attractive for kids – cotton candy, cherry, chocolate, and bubble gum among others. In addition, nicotine is absorbed through the skin, presenting a risk from a broken vial.

Electronic cigarettes, called e-cigarettes, are drug delivery devices originally designed to look like regular tobacco cigarettes. Now they are larger reusable gadgets that can be refilled with liquid, generally a mixture of nicotine, flavorings, and solvents. It is estimated that roughly four million Americans use these battery powered devices. They have been hailed by proponents as a way for addicted smokers to get their nicotine fix without sucking in the thousands of carcinogens found in traditional cigarettes.

However, the evidence of their effectiveness in assisting persons in weaning off their nicotine addiction is less than stellar. In addition, evidence is rapidly mounting that they are serving as a "gateway" for young teens into the world of nicotine addiction. A recent study found nearly 1.8 million youth had tried e-cigarettes, and the number of middle and high school e-smokers doubled in one year. No wonder the industry targets the young who will be potential customers for decades to come! Their goal – to have the number of e-smokers quadruple in the next few years.

So how bad is the risk of exposure? Nicotine is a naturally occurring powerful neurotoxin, and in its potent liquid form, can be ingested or absorbed through the skin. Tiny amounts can cause vomiting, seizures, and even death. A teaspoon of even the highly diluted liquid can kill a small child.

A dose of 50 to 60 milligrams (mg) is potentially fatal for an adult; a 30 pound child could die from 1.36 mg. A vial of e-juice as commonly sold in retail stores is 17 milliliters, and with a 2.4% concentration would have 408 mg of nicotine. This year it is estimated that 1 to 2 million LITERS of liquid will be sold, much of it on the Internet. A liter of 10% concentration costs about \$110, a gallon \$195, and one company even offers a 55 gallon drum!

Nationwide, reports of accidental poisonings linked to e-liquids in 2013 jumped 300% from 2012, and is on pace to double again this year. Most cases are under the age of 4. A shop owner says that "We tell them that this stuff is poisonous. We do everything we can to protect the consumers, but at the end of the day, you leave a loaded gun on the floor, and your child gets hold of it, it's not gonna be the gunmaker's responsibility." A CEO of e-cigarette franchises says "It's the wild, wild west right now." There is no FDA regulation so far. So at the moment, if you are a user, your child has to go no farther than your own home to find a lethal dose of poison. Be aware of the risks, and keep vials out of reach. You are responsible for the safety of your children.

Governor Brown Declares Drought State of Emergency

With California facing water shortfalls in the driest year in recorded state history, Governor Edmund G. Brown Jr. today proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for these drought conditions.

"We can't make it rain, but we can be much better prepared for the terrible consequences that California's drought now threatens, including dramatically less water for our farms and communities and increased fires in both urban and rural areas," said Governor Brown. "I've declared this emergency and I'm calling all Californians to conserve water in every way possible."

In the State of Emergency declaration, Governor Brown directed state officials to assist farmers and communities that are economically impacted by dry conditions and to ensure the state can respond if Californians face drinking water shortages. The Governor also directed state agencies to use less water and hire more firefighters and initiated a greatly expanded water conservation public awareness campaign (details at saveourh2o.org).

In addition, the proclamation gives state water officials more flexibility to manage supply throughout California under drought conditions.

State water officials say that California's river and [reservoirs](#) are below their record lows. Manual and electronic readings record the snowpack's statewide water content at about 20 percent of normal average for this time of year.

The Governor's drought State of Emergency follows a series of actions the administration has taken to ensure that California is prepared for record dry conditions. In May 2013, Governor Brown issued an [Executive Order](#) to direct state water officials to expedite the review and processing of voluntary transfers of water and water rights. In December, the Governor formed a [Drought Task Force](#) to review expected water allocations, California's preparedness for water scarcity and whether conditions merit a drought declaration. Earlier this week, the Governor toured the Central Valley and spoke with growers and others impacted by California's record dry conditions.

Mammoth Lakes Police Department Implementing Reserve & Volunteer Program

In an effort to off-set some of the impact resulting from the loss of 7 sworn officers, the Mammoth Lakes Police Department has been moving forward on developing Reserve and Volunteer Programs, and evaluating various forms of technology to help make the MLPD more efficient and effective. The following are some of the programs the MLPD is moving forward on:

RESERVE OFFICER PROGRAM

On February 6, the Town Council approved the establishment of pay scales for Reserve Officers. The pay will be:

- Level 1 Reserve - \$25/hour
- Level 2 Reserve - \$23/hour
- Level 3 Reserve - \$20/hour

Providing pay for Reserve Officers will make the MLPD competitive with other local agencies that have reserve programs and serve as a recruitment and retention tool.

Anyone interested in learning more about the MLPD Reserve Program should contact Sergeant Marc Moscovitz at (760) 934-2011.

VOLUNTEER PROGRAM

Many police departments benefit from active volunteer programs where trained volunteers assist police personnel by staffing front counters, completing reports, and providing community patrols. Retired Sergeant Karen Smart has agreed to manage the MLPD's volunteer program. At some time in the future, information will be released about the types of volunteer work available and the selection criteria. Anyone interested in volunteering with the MLPD should be on the look-out for a news release announcing the start of the program.

TECHNOLOGY

The MLPD is moving forward with technological advances on several fronts. They include:

- An on-line reporting system where certain crimes can be reported on-line.
- An on-line crime and traffic report purchase program where victims of crimes and parties in traffic collisions can purchase copies of reports on-line.
- Access to surveillance cameras at the North Village.
- Surveillance cameras at the Volcom Brothers Skatepark.

The MLPD is also exploring other technology that will make the Police Department more effective in addressing crime, the fear of crime, and quality of life issues.

Free, Real-Time Property Information Now Available!

The Town of Mammoth Lakes and Mono County are proud to present ParcelViewer, the Town and County's official web-based property information system. This free, public, on-line service can be relied upon to provide convenient, accurate and up-to-date information, based on the official Assessor's data-base. Use ParcelViewer to view and print customized parcel information and maps, including:

- Zoning Information
- Property Addresses
- Complex Names/ Condo Unit Numbers
- Parcel Lines*
- Valuation Data
- Acreage
- Aerial imagery of surrounding properties and more!

Visit Parcel Viewer today at <http://gis.mono.ca.gov/parcelviewer/>

Transient Occupancy Tax (TOT) Frequently Asked Questions

Some of the most frequently asked questions about legal rentals and Transient Occupancy Tax (TOT) are:

What is a transient rental?

A transient rental is any unit that is occupied for the purpose of sleeping, lodging, or similar reasons for a period of 30 consecutive days or less in exchange for a fee or similar consideration.

Can I rent my unit as a transient rental?

Only some zones within the Town of Mammoth Lakes permit transient rentals. The following zones permit transient rentals:

- RMF-2 (Residential Multi-family 2)
- CL (Commercial Lodging)
- CG Commercial General)
- R (Resort, including master plan areas)
- SP (Specific Plan, including North Village and Clearwater)

This list is intended as a guide only. Although the above zones permit transient use generally, other regulations, such as those found in master plans, CC&Rs, or project conditions of approval may prohibit transient rental within a particular development. Generally, transient rental of single family homes is prohibited. A zoning map can be found on the Town's website.

What is transient occupancy tax (TOT)?

Transient occupancy tax, or TOT, is a 13% tax that is charged "for the privilege of occupancy of any transient occupancy facility." The tax is required to be paid to the operator of the transient occupancy facility at the time the rent is paid. It is the operator's responsibility to remit the TOT to the Town.

Do I need to pay TOT?

If you are renting your unit as a transient rental, even if it is only for one weekend a year, you need to pay TOT. This includes single family homes and other units that are not permitted to rent nightly, but may be doing so illegally. TOT shall be remitted for each night the unit is rented.

Do I need a business tax certificate?

Yes, if you are renting your unit on a transient basis.

Do I need a transient occupancy tax certificate?

Yes. You are required to purchase a transient occupancy certificate for each rental unit to post in your transient rental property. This is included as part of Schedule E or F in the business tax certificate application.

What is the difference between a business tax certificate and a transient occupancy tax certificate?

Business tax is an annual tax and is required for all business activity. The transient occupancy tax certificate is a one-time purchase that is non-transferable. This certificate is required to be posted in your transient rental unit.

Do I need a business tax certificate if all of my rentals are handled through a reservation company?

If all of your rentals are handled through a reservation company, most reservation companies will purchase the transient occupancy tax certificate and collect and remit the TOT to the Town. You may wish to check with your reservation company to confirm that this is being taken care of. If you rent your unit by owner in addition to renting with a property management company, you

are also required to obtain a separate business tax certificate and transient occupancy tax certificate.

How do I apply for a business tax certificate?

The Town's website contains information regarding business tax certificates, including an application for a business tax certificate: <http://www.ci.mammoth-lakes.ca.us/index.aspx?NID=182>. Transient Rentals fall under schedule F for condominium rentals and schedule E for hotels, motels, lodges, and campgrounds. This application can be mailed back to the Town, or submitted in person. The total cost for one unit is \$118.00 (\$65.00 application fee, \$5.00 planning review fee, \$25.00 fee to rent one unit, \$23.00 TOT certificate fee). Additional costs apply for additional units. Business tax certificates are required on or before the first day business commences; penalties will apply for late filings. If you have additional questions regarding this process please contact the Finance Department at (760) 934-8989 ext. 273.

Do I have a business tax certificate?

To find out if you have a valid business tax certificate on file, please contact the Finance Department at (760) 934-8989 ext. 273 or your property management company.

What is illegal rental activity?

Illegal rental activity is any rental activity that is not consistent with the Town's Zoning Ordinance, or any rental activity that is not compliant with the Transient Occupancy Tax Ordinance. This can include transient rental of units located in zones that prohibit transient rentals. It can also include transient rentals in a zone where it is permitted, but when the TOT is not remitted to the Town.

How can I report illegal rental activity?

If you suspect illegal rental activity, you may submit an anonymous tip via the Town's TOT hotline at (760) 934-8989 ext. 275 or on the Town's website via the Transient Occupancy Tax information page. Please include any information that you have that would substantiate the claim, along with the property address and owner's name if you have it. You may also email tot@ci.mammoth-lakes.ca.us. Note that emails are not anonymous, however, staff will do its best to keep your information private.

Questions & Anonymous TOT Hotline

If you have questions about TOT enforcement, or if you would like to report suspicious activity or rental advertisements please contact our anonymous hotline. The Town will follow-up on any reports submitted. The Hot Line Number is (760) 934-8989 ext. 275 or email your information to: TOT@ci.mammoth-lakes.ca.us.

Register for CodeRED

Residents of Mono County can register their cell phones to receive emergency CodeRED (reverse 911) alerts from Mono County. This is a county public service available to all Mono County residents so please tell your friends and neighbors in Mono County that they can register for this service. CodeRED announcements are for personal notification and will not replace CERT CAHAN notification. Here is how to sign register/sign up using the INTERNET:

- Go to monosheriff.org
- Scroll down left side panel to CodeRED community notification system;
- Click on it and follow directions.

Town Outdoor Lighting Ordinance

In 2003, the Town implemented an outdoor lighting ordinance to eliminate light pollution and preserve views of our starry skies. The outdoor lighting ordinance was adopted to encourage residents to administer a lighting system that not only promotes public safety and night-time ambiance but to maximize energy conservation. To eliminate glare and light trespass into neighboring properties and roadways, the outdoor lighting fixtures on your property should be shielded and re-directed to shine downward or changed out to a lower wattage. More information about responsible lighting can be found at www.crlaction.org.
