

2016 CALIFORNIA BUILDING CODES TRAINING

FRIDAY, JUNE 23, 2017
8:30AM – 9:00AM SIGN-IN
9:00AM – 4:00PM TRAINING
MINARET VILLAGE MALL, SUITE Z
437 OLD MAMMOTH ROAD, MAMMOTH LAKES

Interested in learning more about construction standards in the current 2016 California Building Codes and in the local codes for the Town?

Interwest Consulting Group, in coordination with the Town of Mammoth Lakes and Mammoth Lakes Fire Department, will conduct educational training specific to the construction standards and requirements that are identified in the 2016 California Building and Fire Codes.

This training will focus on both new and existing standards that are found in the 2016 California Residential, Electrical, Mechanical, Plumbing, Fire, and Energy Codes. The 2016 California Codes became effective state wide on January 1, 2017, and are currently enforced in both the Town of Mammoth Lakes and Mono County. Included in the training will be discussion of local codes of the Town and Fire District.

This will be an interactive presentation with the attendees with question and answer opportunities, so please bring up any "real world" questions, situations, etc. that we may address!

Coffee and refreshments will be provided in the morning, and lunch will be provided at 12 noon.
